Grönsiska 2

Hämpling 1

Totalt 11 individer av 7 arter.

Ringmärkare: ERD, JSA, KWL, HXF, FMN, VIV, JMS, ALD, MHM.

DIVERSE:

STTG: Very few birds again, but the 2nd sparrowhawk of the year was definitely a highlight! It was a 2nd calendar year female. Also the 2nd willow warbler of the year and a siskin.

AND: Nothing caught.

Div: We did a bit of station cleaning in preparation for the ottenby comitte tomorrow. JMS taught HXF about sparrowhawk moult/ageing and black redstart morphs. The duck lab was brought to the duck trap by one of the farmers' trucks. ALD rearived and brought with her the new lure ducks! 4 mallards and one gadwall. They were ringed and brought to the duck trap. LBR arrived as part of the ottenby comittee and joined us for dinner. After dinner we watched The Big Year in the library.
