RINGMÄRKNING:

**Inga nät, andfänget aktivt**

Gräsand 31

**Totalt 31 individer av 1 art.**

Ringmärkare: AMN, HDY, LSK.

DIVERSE:

AND: Yet another new record! On this occasion, 230 ducks were processed in total, the first time over 200 has ever been reached in a single day at the duck trap! To top it off, one Teal was retrapped.

Another stunningly clear sunrise followed by lots more work carried out; cleaning the TV room and kitchen, finishing the new work bench, entering ringing data and working on diaries.

We were lucky enough to have the Gyr Falcon sitting on Udden during the day as we prepared net strings for next year.

LBO left.
