DIVERSE:

AND: The day began with yet another record being broken. On this occasion, 197 ducks were processed, including 43 new (another record for the season).

It was a beautiful day with a smattering of snow in the cold winter sun!

We took the good weather as an opportunity to take in all remaining nets and fix them, as well as enter ringing data, clean the white house, work on diaries and mend a bunkbed. HDY and AMN went to Gårdby for Fika. Much of the day was accompanied by the sight and sound of Waxwings and Snow Buntings lingering about Udden.

RINGMÄRKNING:
